

California DF&G Bowhunter Education Class

Sponsored by Bowhunters Unlimited

About This Bowhunter Safety Course

California accepts this independent study method, which is a two-part process:

1. This online course, completed on your own time and your own schedule, followed by,
2. A Field Day Exercise and testing led by California Certified Bowhunter Education (IBEP) volunteer instructors.

BEGIN your bowhunter education certification by studying at home on your computer. Upon successful completion of the online portion of the bowhunter education course (which is confirmed by taking an exam online) you will print out a Field Day Qualifier Voucher. This Field Day Qualifier Voucher is required to attend the final portion of your bowhunter education course, which takes place with a California Certified IBEP instructor in the field. After completing the Field Day portion, which also includes successfully passing the California IBEP State test, you will then receive your official certificate which is proof of course completion.

- There is no minimum age to be tested and certified with this online course.
- Completion of the online requirement is only a **portion** of the required curriculum. You must attend a Field Day and complete any remaining course requirements at that time. You will have 365 days from the time you successfully complete the online portion to enroll and complete the Field Day portion of the curriculum.

Field Day Portion:

- **Logistics**
 - **Date:** Saturday 21 August 2010
 - **Time:** 1:00 → 5:00 pm
 - **Location:** Stevens Creek Archery Range, Home of Bowhunters Unlimited
 - **Cost:** \$20 for Course Materials
- **Prerequisite:** Complete the online California Bowhunter Education course & exam at:
<http://www.bowhunter-ed.com/ca/index.htm>

You must bring a printed copy of your Field Day Qualifier Voucher, which confirms that you have successfully completed the online course and exam!

To enroll for this Field Day portion, send an email to Ray Roan at: DrRCRoan@aol.com
